

# NCS2-ITM203

Dual ports 10GBase-T NIC Module with Intel® X540/X550 Ethernet Controller

## Features

### 10 Times Faster of High-Performance 10Gigabit Ethernet

The NCS2-ITM203 10GbE NIC module, provides two RJ45 connectors which can connect 10GBase-T copper Ethernet.

### Intel® X540/X550 Ethernet Controller

The Intel X540/X550\* Ethernet Controller is a Single-Chip Solution with integrated MAC + PHY. Compare to two separate chips, not just reduce cost, also reduce the per-port power consumption. (\*X550 is project-based)

### Two Copper GbE LAN ports

With this NIC module, customer can expand 2 copper 10GbE LAN ports (using Intel X540-AT2) to work with Cat.6A cabling.

### PCI Express™ 2.1 x8

NCS2-ITM203 is with PCI Express 2.1 x8 golden finger, it can be inserted into the PCI-E 2.1 or 3.0 x8 NIC module slot of Lanner network appliances, the performance of PCI-E 2.1 can up to 5.0 GT/s bit rate.

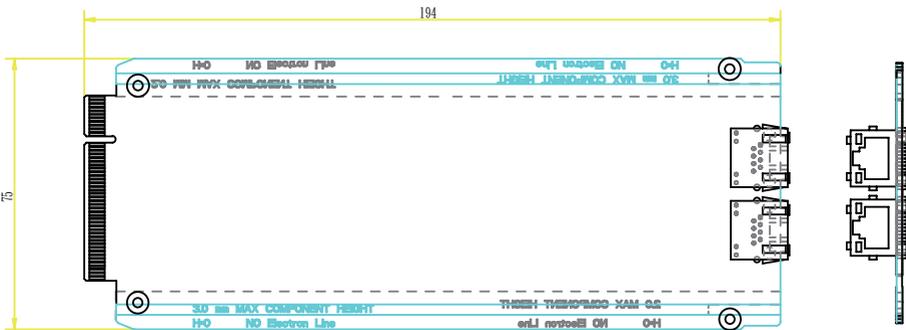

**Lanner**

## LAN Bypass Technology

Bypass ports allow uninterrupted network traffic even if a single in-line appliance is shut down or hangs. Lanner's engineers have improved on standard bypass functionality to provide higher reliability and greater control. Each pair of Generation 3 bypass ports can be programmed to turn on and off. They also allow data packet through when the appliance is powering on and off.

## Dimensions 194 x 75 mm

## Preliminary Specifications

<b>PCB</b>		NCS-ITM203
<b>Chipset</b>		Intel X540-AT2 (X550 is project-based)
<b>Interface</b>		1x PCI-E 2.1 x8 Golden Finger
<b>Connector</b>		2 x RJ45 10G ports
<b>Switch</b>		N/A
<b>Temperature</b>	Operating	0 ~ 40°C
	Storage	-10~70°C
<b>Cooling</b>		Locking mechanism type heatsink
<b>Humidity</b>		5%~90% RH, Non-condensing
<b>Physical Dimemsions</b>		PCB: 194 x 75 mm
<b>PCB Layer</b>		8 Layers

## Ordering Information

<b>NCS2-ITM203A</b>	2 10GbE LAN ports NIC module with Intel X540-AT2 with 1 pairs LAN Bypass
<b>NCS2-ITM203B</b>	2 10GbE LAN ports NIC module with Intel X540-AT2 without LAN Bypass

## Compatible Lanner FW Network Appliances

<b>Slim Module</b>	<b>FW-8877</b>	<b>FW-8771</b>	<b>FW-8895</b>
