

# FW-8875

## Intel 5520 Based Sever-Grade Network Communication Appliance

### Features

#### Multicore Processing with Energy Saving Performance

Constructed around the Intel server-grade 5520 chipset, the FW-8875 is an example of low power consumption and high computing execution in a network appliance. Bleeding-edge Quad-Core Xeon 5500 series processors improve processing capacity with less relative power consumption, translating into increased productivity while providing greater thermal management and energy saving.

#### Fast Networking IO

Along with support for a Quad-Core Xeon processor, the FW-8875 supports DDR3 memory

technology together with Intel's advanced Quick Path Interconnect and PCI-E Gen 2 I/O to provide increased system performance and reduced power consumption. PCI-Express bus networking data paths eliminate performance bottlenecks by efficiently handling large address and data packets that your system may encounter.

#### Hardware Acceleration

The optional onboard Cavium accelerator board processes IPsec and IKE, IPv6, SSL and Wireless LAN security protocol macro commands, which reduce host I/O traffic and dramatically offload system processes to increase total system throughput.

### Customization for Future Needs

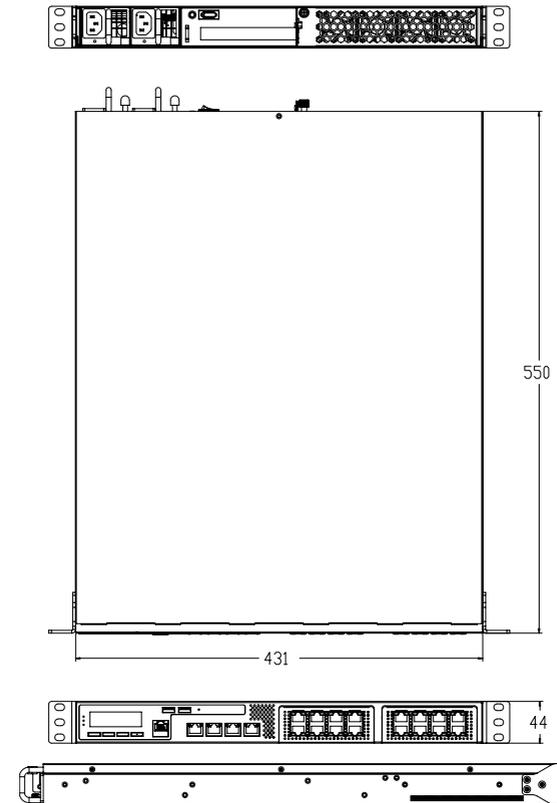

Supporting twelve Ethernet ports via three front facing optional modules, the FW-8875 offers great customization options now and considerable hardware expansion capabilities to meet future needs.

### RoHS Compliant

Our pre-tested RoHS compliant systems give you the advantage of global compliance with today's growing standards of environmental safety.

### Dimensions: 442 x 44 x 520 mm

## Specifications

<b>Form Factor</b>		1U Rackmount
<b>Platform</b>	Processor Options	Intel Xeon 5500/5600 on LGA 1366
	Chipset	Intel 5520 + ICH10R
<b>BIOS</b>		AMI BIOS 32Mbit SPI Flash ROM x 2
<b>System Memory</b>	Technology	Triple-Channel DDR3 800/1066/1333 MHz Registered ECC or unbuffered, ECC or non-ECC
	Max. Capacity	24GB
	Socket	6 x 240P DIMM
<b>OS Support</b>		Windows 2000, 2003, XP, 7. Linux kernel 2.4 and up, OpenBSD, FreeBSD
<b>Storage</b>	HDD Bays	2 x 2.5"
	CompactFlash	1 x Type II CompactFlash
<b>Networking</b>	Ethernet Ports	4 x GbE RJ45 default 20 GbE ports max.
	Bypass	2 pairs G2
	Controllers	2 x Intel 82571EB
	Ethernet Modules	2
	Management Port	N/A
	Security Acceleration	Cavium CN1620 (optional)
<b>I/O Interface</b>	Reset Button	1 x reset button Software reset by default
	Console	1 x RJ45
	USB	2 x USB 2.0
	IPMI via OPMA slot	N/A
<b>Expansion</b>	PCIe	1 x PCI-E*8 expansion (optional)
	PCI	1 x Mini PCI
<b>Cooling</b>	Processor	CPU heatsink with fan duct
	System	4 x independent hot-swappable cooling fans with smart fan control
<b>Environmental Parameters</b>	Temperature, ambient operating / storage	0 ~ 40° C / -20~70° C
	Humidity (RH), ambient operating / ambient non-operating	5~95%, non-condensing
<b>Miscellaneous</b>	LCD Module	2 x 20 characters
	Watchdog	Yes
	Internal RTC with Li Battery	Yes
<b>Physical Dimensions</b>	Dimensions (WxHxD)	442 x 44 x 520 mm
	Weight	12 kg
<b>Power</b>	Type / Watts	1 + 1 ATX redundant powers 400W / each
	Input	AC 90~264V @47~63 Hz
<b>Approvals and Compliance</b>		CE emission, FCC Class A, RoHS
